SKILLS

- Languages:** C++, C, Java, Python, JavaScript
- Web Technologies:** React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS
- Databases:** MySQL, MongoDB, PostgreSQL
- Tools/Platforms:** AWS, Git, GitHub, Figma
- Soft Skills:** Problem-solving, Fast learner, Team collaboration, Adaptability, Time management

PROJECTS

Connectly-Chat | GitHub | Live Jan' 2025 - Apr' 2026

- Built a real-time MERN chat application to enable seamless 1:1 and group communication.
 - Implemented Socket.IO-based bidirectional messaging, JWT authentication, and optimistic UI with message reconciliation for low-latency updates.
 - Achieved near real-time (<300ms) message delivery with consistent state synchronization, supporting concurrent users via a scalable, stateless backend architecture.
- Tech:** React.js, Node.js, Socket.IO, MongoDB, JWT, RESTful API, Tailwind CSS

SmartAgri | GitHub | Live Oct' 2025 - Apr' 2026

- Developed a full-stack electricity management portal for farmers to submit power requests, track approvals, and monitor subsidies via role-based dashboards.
 - Engineered secure REST APIs with JWT authentication, password hashing, and RBAC, backed by MongoDB transaction ledgers for subsidy and top-up tracking.
 - Automated unit credit on approval, reducing manual admin effort and improving subsidy transparency for 2 distinct user roles.
- Tech:** React.js, Vite, Node.js, Express.js, MongoDB, Tailwind CSS, Recharts, JWT

Ballistic Recognition Tool | GitHub Apr' 2025 - Jun' 2025

- Developed an automated ballistic impact analysis system to reduce manual effort in forensic investigations.
 - Implemented image processing and feature extraction using PHP (GD library) with database-driven matching algorithms.
 - Improved identification accuracy by ~30% and reduced manual analysis time by ~40% using automated feature extraction algorithms.
- Tech:** HTML, Tailwind CSS, JavaScript, PHP

INTERNSHIPS & TRAINING

Cipher Schools - Mobile Application Development using Flutter | Certificate May' 2025 - Jul' 2025

- Completed an intensive mobile app development program focused on Flutter, Dart, cross-platform architecture, and UI component design.
- Built responsive, high-performance Android and iOS applications using Flutter widgets, state management techniques, and clean UI and UX design principles.
- Gained hands-on experience with Git, GitHub, debugging tools, and collaborative development workflows for mobile application projects.

CERTIFICATIONS

- Cloud Computing | NPTEL | Certificate Apr' 2025
- Data Structures and Algorithms using C++ | Cipher Schools | Certificate Nov' 2024
- Responsive Web Design | freeCodeCamp | Certificate Oct' 2023

ACHIEVEMENTS

- Earned Gold Badge in React.js on HackerRank by consistently solving advanced frontend challenges involving hooks, state management, and performance optimization. May' 2026
- Ranked Top 5 in Hackathon for designing and developing an E-Learning platform. Mar' 2024

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.2 Aug' 2023 - Present
- Karim City College** Jamshedpur, Jharkhand
Intermediate - PCM; Percentage: 89% Apr' 2020 - Mar' 2022
- Kokpara High School** Kokpara, Jharkhand
Matriculation; Percentage: 92% Apr' 2019 - Mar' 2020
